With our friendly, competent employees, our new, quiet, eco-friendly ships and a menu full of unforgettable culinary experiences, we are here to ensure your optimal experience of the Norwegian coastline.

We invite you to explore the ship with its large, spacious cabins, an interior that reflects the coast and, not least, the floor-to-ceiling panoramic windows where the changing Norwegian coastline becomes a living mural. The ship has a glass roof through which you may be able to marvel at the Northern Lights or the midnight sun.

We invite you to sample the best and most delicious Norwegian food; the menu changes depending on where you are along the coast, although some favourite dishes stay on the menu throughout the voyage. For Havila Gold passengers, and to add that special touch, there are also delicious additional dishes.

We invite you to travel on our ship on a voyage that will make a big impression on you while leaving a smaller carbon footprint. Havila Voyages only operates new, eco-friendly passenger ships that run on natural gas and, among other things, have the world's largest battery packs on board. This makes for quiet sailing.

Welcome aboard!

TWELVE DAYS - COUNTLESS MEMORIES

Deep into the fjords and far out to sea.

Experience everyday life along the coast and festive occasions in Norwegian nature.

More than 1,000 fjords and 200,000 islands along the world's second longest coastline. The coastal round trip route from Bergen to Kirkenes and back will provide many new experiences. The mountains are immutable, but the weather and the light change constantly transforming the colours and appearance of the landscape. Here you will encounter grey drizzle, crackling green Northern Lights or the soft, golden midnight sun. Along the coast, tiny fishing villages shelter from the fierce Atlantic breakers, while larger coastal towns nestle in the narrow space between wild mountains and the rolling sea.

Sometimes, the experiences are the people you see, e.g. observing the joy of a welcome hug on the quay when the locals come home from their coastal voyage. Other times, it's the sight of mighty mountainous massifs or the expanse of the sea, the salty smell of or the bracing sea air.

Experiences also await in the ports and within coastal towns and the surrounding areas. How about an eagle safari? Or dog sledging under the Northern Lights? And you'll never forget the taste of the sweet, delicate white crab meat from the king crab that you hauled up from the depths.

Experience:

- ✓ The entire coastal route with 34 ports from Bergen to Kirkenes and back
- ✓ Crossing the Arctic Circle twice
- ✓ Sailing northward around the northernmost point of Europe
- ✓ Sailing through the Lofoten Islands
- ✓ Four UNESCO World Heritage Sites
- ✓ The Northern Lights in winter
- ✓ Midnight sun in the summer

ROUND TRIP AND TOWARDS THE NORTH

Whether you are going on the entire round trip or just part of it, new adventures await you every day.

Magical Norwegian fjords

DAY 1

PORT: BERGEN

The voyage starts in Bergen, the capital of western Norway, where you can see the colourful, UNESCO-listed warehouses in Bryggen. Take the funicular railway, Fløibanen, up to one of the lookout points, sample the seafood at the fish market or take a stroll through the narrow streets and along the quays of the lively harbour. Bergen is the gateway to the Norwegian fjords and the start of your coastal adventure.

DAY 2

PORTS: FLORØ-MÅLØY-TORVIK-ÅLESUND-GEIRANGER*/HJØRUNDFJORDEN*-ÅLESUND-MOLDE

After the first night on board, you can start your day by waving to the Havila Voyages headquarters just off Torvik. Ålesund is renowned for its art nouveau architecture with beautiful brick houses and warehouses. In the summer, you can continue to the UNESCO World Heritage Site of Geiranger Fjord, which has steep mountainsides and dramatic waterfalls.

DAY 3

PORTS: KRISTIANSUND-TRONDHEIM-RØRVIK

It is morning when we dock in the historic city of Trondheim, which was founded over a thousand years ago. Nidaros Cathedral is the city's major landmark; it is Norway's national shrine and one of the largest cathedrals in northern Europe. After our visit here, the voyage continues out into the fjord towards northern Norway.

Adventures in northern Norway

DAY 4

PORTS: BRØNNOYSUND-SANDNESSJØEN-NESNA-ØRNES-BODØ-STAMSUND-SVOLVÆR

On this stretch, we mark crossing the Arctic Circle with a ceremony and continue into the Arctic regions. It means midnight sun in the summer, while winter days are mostly dark day and night, and the possibility of Northern Lights in the evenings. Nature is powerful with northern Scandinavia's largest glacier, the world's strongest tidal current and encounters with the majestic sea eagle. In the evening, Lofoten fishing villages, steep mountains and Vikings in helmets await. Many of these are our own Havila products that you will not find elsewhere.

The top of Europe

DAY 6

PORTS: HAMMERFEST-HAVØYSUND-HONNINGSVÅG-KJOLLEFJORD-MEHAMN-BERLEVÅG

This is as far north as you can get — by land or sea. For many, the visit to the North Cape is a high point and a goal for voyages along the Norwegian coast. Up here in the polar landscape, nature is at its harshest and most desolate, but between bare plains and rugged cliffs people cling on and reap nature's bounty. You can also have a taste of the catch. How about some king crab?

DAY 5

PORTS: STOKMARKNES-SORTLAND-RISØYHAMN-HARSTAD-FINNSNES-TROMSØ-SKJERVØY

The voyage continues on through narrow fjords and past wild mountains to Tromsø, a city associated with hunting and fishing, polar expeditions and courage. Now you have also reached the land of the Sami, Norway's indigenous people. Meeting the Sami and their reindeer and learning about Sami culture is a unique and memorable experience.

DAY 7

PORTS: BÅTSFJORD-VARDØ-VADSO - KIRKENES

You are now as far east on your voyage as you can go. The border with Russia is only a few kilometres away, and the road signs in Kirkenes are in Norwegian and Russian. You can go as far as the border on one of our excursions, or how about a visit to the Snowhotel where everything is made of ice and snow?

ROUND TRIP AND TOWARDS THE SOUTH

DAY 8

PORTS: MEHAMN-KJOLLEFJORD-HONNINGSVÅG-HAVØYSUND-HAMMERFEST-ØKSFJORD-SKJERVØY-TROMSØ

The polar landscape changes as we sail west and south again. The great expanses are replaced by steep peaks, and in the evening we sail into Tromsø. You can go to a midnight concert in the Arctic Cathedral, or take a stroll in the midnight sun or under the Northern Lights and explore the nightlife of the city dubbed "The Paris of the North".

DAY 9

PORTS: FINNSNES-HARSTAD-RISØYHAMN-SORTLAND-STOKMARKNES-SVOLVÆR-STAMSUND

We return to the wild, idyllic Lofoten Islands. Beneath the jagged mountains lie chalky white sandy beaches and fishing villages with a vibrant fishing industry, and the locals using the coastal ships for everyday trips and transportation. If the weather permits, we will enter the narrow Trollfjord. There is a strong possibility of spotting sea eagles here.

DAY 10

PORTS: BODØ-ØRNES-SANDNESSJØEN-BRØNNØYSUND-RØRVIK

At this point, we will have come so far south that we will be crossing the Arctic Circle and sailing away from the polar night and the sunlit nights. But you can still see the Northern Lights in the winter, and it is never completely dark during the summer nights. Here you sail past a myriad of small islands, islets and skerries and past the special mountain, Trollhatten, which has a hole in the middle. If you wish, you can also join us for a walk on the mountain and enter the cavern.

Magical Norwegian fjords

DAY 11

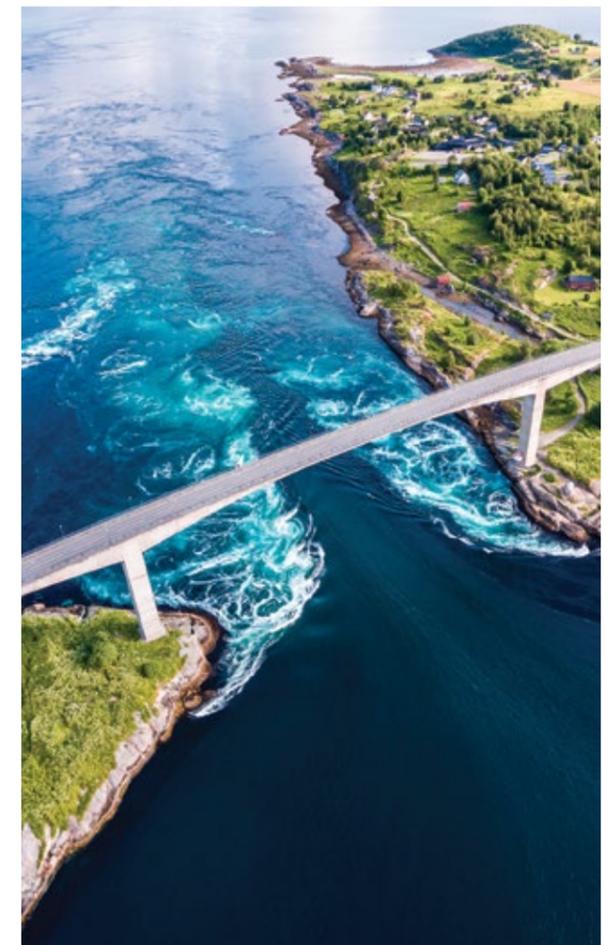

PORTS: TRONDHEIM-KRISTIANSUND-MOLDE-ÅLESUND

We sail through the wide Trondheim fjord that is bounded by rolling farmland on both sides and return to the coast and the open sea. You can disembark in Kristiansund and be driven along the Atlantic Ocean Road, which has been called the world's most beautiful drive. The road meanders along islets and skerries, and afterwards you can re-embark in Molde.

LAST DAY

PORTS: TORVIK-MÅLØY-FLORØ-BERGEN

The last day of the tour takes you through a diverse coastal landscape of bare rocky mountains and a maze of sounds and waterways between numerous islands. The great fjords and glaciers are situated inland. Bergen awaits at the end of the voyage. We hope you leave with many good memories of your time on the Norwegian coast with Havila Voyages, and we look forward to welcoming you back on board again.

THE BEST WAY TO EXPERIENCE A TASTE OF NORWAY

Our location along the coast will determine the menu on board Havila Voyages.

Allow us to present you with the flavours of the fjords, the polar region, the Arctic and the archipelago; four food universes that reflect the coast you sail along. There is an extensive variety of flavours from the vast Norwegian coastline.

On board the Havila Voyages ships, you will get personal service at all meals, and we offer a wide range of side dishes so that you can create a meal for yourself with as much food and as many flavours as you like.

We also have Hildring, a fine dining restaurant; the five-course signature menu here offers the very best of Norwegian ingredients. BIG IMPRESSIONS WITH A SMALLER CARBON FOOTPRINT

Per Sævik's family lived at the far end of the coast of Sunmør, and he was one of nine children. His father was a fisherman, skipper and shipowner. At the age of twelve, Per earned his first wages through fishing and bought his first boat just a few years later. This was the start of the Havila Group, which currently employs several thousand workers. The name Havila comes from Havilah in the Bible. Havilah is associated with the Garden of Eden, and its land contains gold.

Out by the coast, you are as close to nature as possible. There are windswept knolls, fierce storms and unpredictable fishing. This makes you strong – and you learn to see new opportunities.

GOOD PEOPLE AND GOOD SHIPS

For Per, it has always been about ships and crews and about life on and by the sea. The home port is the small coastal town of Fosnavåg, where the Havila Group has its head office and Havila Voyages is based.

A FANTASTIC JOURNEY FOR EVERYONE

Havila harvests natural resources. Therefore, sustainability and the environment are important, and Havila Voyages has invested several hundred million Norwegian kroner in the most eco-friendly passenger ships on the voyage between Bergen and Kirkenes. The aim is to ensure that Havila Voyages and its passengers have the least possible impact on the environment. Per Sævik puts it like this: Our voyages bring us through a world heritage area as well as vulnerable natural areas. Those who come after us should be able to do enjoy this natural heritage in the same way.

Enjoy great experiences while leaving a small carbon footprint!

-  The world's largest battery packs
-  Four hours' silent sailing with zero emissions
-  Energy efficient hull
-  Locally sourced ingredients
-  Heat recovery from the sea and engines
-  Charging current on the quay from hydropower
-  Liquid natural gas that cuts CO2 with 25%
-  NOx emissions reduced by 90%

See Norwegian islands, fjords and Arctic nature at close quarters; try traditional Norwegian food and experience Norwegian culture and history.

Experience the highlights of the Norwegian coast with the Havila Voyages' excursion programme. Whizz across the plains on dog or reindeer sledges, or take a trip in a rib to see sea eagles or Saltstraumen, the most powerful tidal current in the world. Gaze in wonder at the medieval architecture of Nidaros Cathedral, one of northern Europe's largest cathedrals, or enjoy a Viking banquet in the Viking chieftain's longhouse. You can taste local specialities and king crab that you have caught yourself and you can visit the Russian border, the World Heritage Islands of Vega and, of course, the North Cape.

You are invited to join us on trips every day. We offer around 70 excursions, so you can customise your trip depending on the season.

 Read more about our excursions here: havilavoyages.com

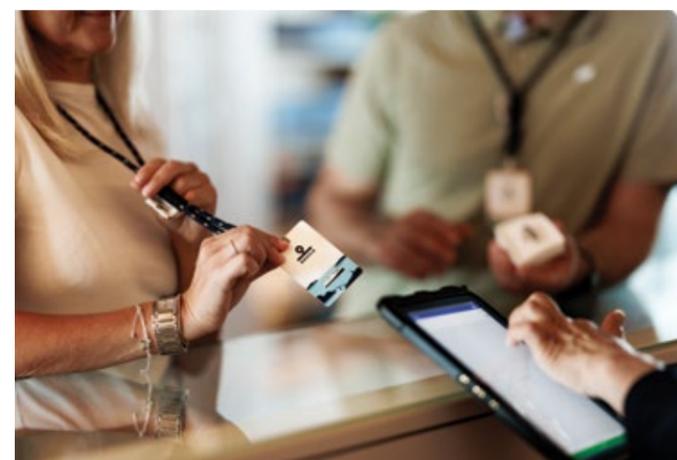

ACTIVITIES ON BOARD

On board you can learn about Norwegian history and sample traditional Norwegian food. You will be invited to participate in a fun ceremony to mark the crossing of the Arctic Circle.

The Norwegian coast with its ever-changing views confers an air of tranquillity as it glides slowly by. Sometimes we pass particularly unique places along the coast. We will give you a little advance notice and information about such places. You may perhaps like to enjoy the views through the large windows or you may prefer to do so by going up on deck?

When we pass the Arctic Circle, you are invited out on deck to a playful baptism ceremony by Njord, the Norse god of the sea. During your voyage, you will also be invited to sample traditional Norwegian food.

And if you are interested in learning more about Norwegian history, there are a range of lectures on everything from Havila to how the Norwegian fjords were created to birdlife, Sami culture, witches and the Northern Lights.
