# THE SCENIC DIFFERENCE

## The difference is in the details

We are the experts in creating an intimate, small-ship experience. Our purpose-built Scenic Space-Ships are a home-away-from-home for up to just 163 guests (up to 149 in Bordeaux and the south of France, up to 124 guests on the Seine, and up to just 96 in Portugal), providing ample room for guests to move about freely and enjoy the vast luxurious public and private spaces.

These sleek vessels get you closer to shore, creating a real sense of immersion in the destination you are visiting. It means too that onshore excursions are hosted in small, intimate-sized groups.

## What does truly all-inclusive mean for you?

We know from experience that one of the key factors that allows people to really switch into holiday mode and relax is by removing the mundane aspects of travelling. When trivial details are taken out of the equation, such as signing for bills, double-checking food tabs or worrying about unexpected costs on your final day, it allows you the ultimate sense of freedom and the ability to be more present throughout your trip.

A Europe river cruise with Scenic is truly all-inclusive, in a class of its own. As our guest, you can be assured that everything is included in the cost of your cruise: your beverages in the bar, restaurants and your complimentary in-suite mini-bar; all meals you enjoy on board; all organised Scenic Freechoice activities and Scenic Enrich exclusive experiences. Transfers, butler service, tipping and gratuities (on board and onshore) are also included.

The only exceptions to our 'truly all-inclusive' mantra are a small handful of ultra-premium and rare wines and spirits; or treatments you may book in our spa. For everything else, give yourself the gift of a mindful holiday and let us take care of the details.

# BE IMMERSED IN THE MAGNIFICENCE OF EUROPE

Europe is one of the world's most popular continents to visit – for good reason. Here, you can view 12th century cathedrals, castles and forts one minute, and then be wandering a world-class art gallery using cutting-edge digital technology the next.

Walk through medieval towns that look and feel like they are frozen in time, where people still ply traditional farming techniques, and then, be seated at an innovative degustation meal on board. A true convergence of architecture, religion, culture, language and cuisine is fused throughout an eclectic melting pot of 44 countries that comprise Europe.

“The Scenic people and service was absolutely fantastic. Would highly recommend Scenic cruises and am looking forward to planning our next cruise.”

Anna R, Scenic Guest, Feefo Review

# ○ THE RIVERS AT A GLANCE

Many of Europe's countries are connected by several major rivers and smaller tributaries. For centuries, the waterways have provided vital passage for trade, and nourished the lands and crops grown in the villages that surround them.

Historic bridges, locks, castles, moats, places of worship, townships and vineyards have been designed and constructed over millennia, in relation to the aspect of the waterways.

As such, a journey along Europe's rivers today takes you through the very essence, and the very origins, of European life and culture.

## Rhine, Main and Moselle

The iconic Rhine River flows through the Netherlands, Germany, France and Switzerland. The Main is the longest tributary of the Rhine and flows through central Germany. The Moselle River, a smaller tributary of the Rhine River, runs through to northeast France and Luxembourg.

## Danube River

The Danube flows through Germany, Austria, Slovakia, Hungary, Croatia, Serbia, Bulgaria and Romania into the Black Sea.

## Rhône & Saône Rivers

The Rhône is a major river in France and Switzerland. In France, it cuts through Lyon, the acclaimed Burgundy wine region, as well as Avignon and Arles. The Saône River is a tributary of the Rhône, joining it in Lyon.

A Scenic Opal, Rhine Gorge, Germany

## Gironde, Dordogne and Garonne

The Dordogne River runs through south-central and southwest France including the Bordeaux region. The Garonne River flows through southwest France and northern Spain. The Gironde River is an estuary that is formed from the meeting of the Dordogne and Garonne rivers. Pass through regions such as Bordeaux, Blaye, Bourg, Saint-Émilion, Cadillac and Sauternes.

## Seine River

The Seine winds through northern France, flowing through Paris and out to the English Channel near Honfleur.

## Douro River

The Douro flows through central Spain and into northern Portugal to its mouth at Porto, the second largest city of Portugal.

**We'll explore each of these waterways in greater detail a few pages on.**

# OUR FIVE STEPS FOR PLANNING THE PERFECT RIVER CRUISE

In this guide, we'll help you through the process of selecting the cruise that will best suit you and your interests. Here are a few questions that you should start with.

*Hint: if you're not quite sure what your answers are yet, keep reading this guide and we'll help you answer them.*

“What a fantastic way to see Europe and in luxury”

Hana H, Scenic Guest, Feefo Review

## 1. Decide which countries you want to explore

If you have a wishlist of countries that you have your heart set on visiting during your cruise, that's a great starting point in your planning as this can greatly narrow down the options.

## 2. Choose truly all-inclusive

Your budget may decide the type of suite that you will book, but Scenic's truly all-inclusive philosophy means managing your budget is easy, because all your drinks, meals, touring and even tipping are included in the cost of your cruise. With constantly fluctuating foreign currencies, locking in your Scenic river cruise and all its inclusions means you don't need to concern yourself with these changes as you await your trip.

There is no more to pay during your cruise, unless of course you would like souvenirs, a spa treatment or an ultra-premium top-shelf beverage. You can simply leave your wallet in your suite's safe and enjoy every moment. A truly all-inclusive river cruise with Scenic really is in a class of its own.

## 3. Determine the type of experiences you'd like to have during your cruise

There is a river cruise to suit all interests and passions. From the food and wine in Portugal, Bordeaux and the south of France to the history, art, castles and medieval architecture of the Rhine Valley, Seine and Danube rivers.

## 4. Narrow down the time of year you'd like to travel in

Each season in Europe offers different temperatures and seasonal delights. Read on for our guide to the seasonal changes you can expect to assist with planning.

## 5. Decide how much time you want to spend in Europe

Figuring out the length of time you want to travel for will help you decide on your itinerary duration. Are you interested in pre or post cruise arrangements? Some travellers like to combine a short cruise with a land extension journey or city stay to make the most of their time and create a seamless Scenic journey, while others prefer to simply complete a longer-length cruise or several cruises back-to-back.

# SEASONAL GUIDE

Each season in Europe has its own charms. Look at some of their nuances and, if you're flexible with your travel dates, you may like to plan your cruise around your preferred time of year.

## SPRING - March, April, May

See the region come to life with spectacular colours as the fields become blanketed with blooming flowers. There are fewer crowds during springtime as compared to summer. Depending on how “long” winter has been, spring in western Europe can be quite cool with some rainy days. Springtime is the best time to cruise in Belgium and the Netherlands as it coincides with the tulip season.

### What's on

Between late March and mid-May, Amsterdam is awash with vibrant tulips. The Budapest Spring Festival is held each year from mid-March to the start of April. It is regarded as the greatest of Hungary's cultural events. The city's cherry blossoms are also in bloom in April.

### Average daily temperature range

A daily low of 5°C to a high of 14°C

## SUMMER - June, July, August

Days exploring are longer with more open-air activities. Wildflowers may still be in bloom and it's one of the best times for hiking. Hot summer days are perfect for relaxing in the sanctuary of your Space-Ship between touring. Temperatures tend to peak in August, so if you prefer warm and sunny but not hot, plan to travel in June.

### What's on

The lavender fields of Provence are most typically vivid in July and the Lavender Festival is held for five days to coincide with this.

### Average daily temperature range

A daily low of 14°C to a daily high of 26°C (up to 34°C in some areas)

- A Keukenhof, Netherlands
- B Provence, France
- C Paris, France
- D Christmas Markets, Vienna, Austria

## AUTUMN - September, October, November

It's all about the hues of autumn leaves and fewer crowds in a European autumn. In Amsterdam, Budapest and Paris, delight in the crunch of leaves beneath your feet. Temperatures begin to fall, so this is a popular time to explore Europe. It tends to stay warmer longer on the lower Danube and on the Douro in Portugal.

### What's on

Autumn is one of the best times to visit winemaking regions such as Bordeaux, when the vineyards are in harvest. Visit the Budapest Wine Festival in early September.

### Average daily temperature range

A daily low of 7°C to a high of 15°C

## WINTER - December, January, February

Experience the smell of roasting chestnuts and glühwein, and wander streets with buildings sparkling with fairy lights. A visit to Europe at this time will see you revel in centuries-old Christmas and New Year traditions. Yes, it is colder, but your Space-Ship will envelop you like a warm blanket.

### What's on

The magic of a European Christmas and its traditional Christmas markets in destinations such as Austria, Germany and Switzerland will provide unforgettable festive moments.

### Average daily temperature range

A daily low of -1°C to a high of 5°C (can be up to about 13°C in some areas)

# HISTORIC HIGHLIGHTS

## Follow in the steps of legend

For hundreds of years, travellers have been lured to Europe to be immersed in its rich tapestry of history that stretches back millennia.

It's everywhere: in the hand-carved limestone catacombs that lie beneath the towns' streets; in the towering cathedral spires and forts that stand watch over cities; in the narrow and cobblestoned streets dotted with shopfronts and homes where battles were once lost and won; in the music composed centuries ago that is still lovingly performed today; and in the brushstrokes of the Masters on paintings displayed in world-famous galleries.

At Scenic, we are experts at connecting you with authorities in these fields. We have a solid network of local storytellers, historians, archaeologists and well-versed local guides who are subject-matter virtuosos, able to bring to life in vivid detail the mysteries of the past.

Whether it's military history, art, food, culture, religion or architecture that piques your interest, on our broad range of Scenic Freechoice activities and Scenic Enrich experiences you will be hosted by knowledgeable guides as you take footsteps into the past. They will help you to understand and more fully appreciate European sites and events of deep historic significance.

# CULTURAL HIGHLIGHTS

## Explore tradition and religion

All 44 nationalities that comprise Europe take extraordinary pride in their country's heritage, tradition and culture. It's one of the aspects that makes a visit to Europe so rewarding and fascinating, as you have the chance to delve into the heartbeat of so many destinations and the nuances that set each apart.

There may be similarities in them – for instance, it would not be a European city or town without a grand church, cathedral, monastery or abbey of some description taking centre stage. And yet, with the help of looking more closely through the trained lens of expert local guides, you'll soon come to understand what makes the French, Swiss, German, Austrian, Hungarian and Dutch people, for example, do things in their own individual way in accordance with their own customs.

Observe it in the flavours of the foods you'll eat; the architectural details of its buildings; the traditional dress of its locals; the influence of its geography on its prized art; the dominant religions and houses of worship; and the history of a region that underpins the attitudes and personality of its people.

Only by exploring with an expert, with a deep understanding of each of Europe's cities and towns, can you experience a heightened sense of place and appreciation of provenance.

Scenic Freechoice activities and exclusive Scenic Enrich experiences are curated to showcase culturally significant and interesting venues, practices, traditions, and art forms.

# WHAT TO PACK

## A guide to what to wear and take on your river cruise

Whichever season you choose for your Scenic river cruise through Europe, this preparation guide will help ensure that you have a comfortable and relaxing journey.

One of the best things about taking a cruise is that you only need to unpack once. There are no dress codes or formal black-tie nights. Casual and comfortable by day and in the evening, if you wish, smart casual is a good guideline. Some guests like to get changed and a little dressed-up for dinner or Scenic Enrich events.

Here are some of the essentials to include:

### Comfortable walking shoes

You'll need a sturdy and comfortable pair of walking shoes. Be sure to 'break in' new shoes prior to your travel to avoid blisters.

### Casual clothes that can be layered

It's best to dress in layers, as temperatures can vary during the day and one day to the next. Breathable, natural and lighter fabrics such as cashmere, cotton and linen are advisable, especially during summer. During the day, most guests will opt for light, casual pants or trousers and a top beneath a light coat or jacket.

### Waterproof jacket, parka or raincoat

Pack a hooded, waterproof jacket. Rain can come at any time, even during the summer.

### A secure day-bag

Have a secure, small-size day-bag. It's handy for all your smaller items including wallet, hat, sunscreen, phone and water bottle.

### Phone & Headphones/Ear Buds

Download the Tailormade App from the App Store and have your headphones handy so you can hear your guide's commentary.

## We supply each guest with a Scenic drink bottle.

Receive your insulated Scenic water bottle when you embark on your Space-Ship and refill it during your journey at one of our filtered water stations.

## Smart casual evening wear

In the evening, most dress in smart casual attire. Male guests usually pack a sports coat or blazer with a collared shirt; and women wear smart dresses or attire – especially on those nights at a Scenic Enrich event, when dining at Portobello's/L'Amour or at the exclusive dining experience Table La Rive/ Table d'Or. If you like to dress-up a little to dine, then please do.

## Workout gear

Your day may start with doing gentle stretching moves, or a sweat session in the fitness centre – so be sure to pack suitable workout gear. For hikes and e-bike excursions, this type of attire may also be most comfortable.

## Swimwear

You may want to take a dip in the inviting Vitality Pool\* as you pass the castles and vineyards dotted along Europe's waterways, so be sure to pack your swimwear.

## Hat and sunscreen

Pack a wide-brimmed hat (preferably one that is foldable); or at the very least, a baseball cap. It will come in handy on your excursions, when dining al fresco or sitting on the Sun Deck. Also pack a high SPF-factor sunscreen with you.

## Camera

Consider a good-quality camera when you explore Europe, including all equipment such as spare batteries, charger, protective case zoom lenses and memory cards. Even if you're using the latest-release smartphone, it's wise to have a back-up camera just in case.

## Adaptors

Each Scenic Space-Ship is fitted with 220v European electricity outlets, so pack a suitable European plug adaptor to use electrical items such as mobile phone chargers.
