EXPEDITIONS FOR THE MIND AND SOUL

Imagine the world lying at your feet like an iridescent carpet – woven from the colours of the ocean, the shades of foreign lands and the mosaic of your own wishes. Our expeditions are never just a cruise: they are storytellers of the hidden chapters of this world, written for dreamers, adventurers and those seeking the unforgettable.

Let yourself be enveloped by the exclusivity of not merely travelling, but experiencing truly special moments. The magic of the polar ice, which glistens like crystal in the sun. The sensual warmth of tropical nights, accompanied by the concert of exotic animals. Mysterious paths that lead to deep insights. A jungle in the morning light, a market full of scents, the wide tundra as an echo of eternity.

Come with us, across seas and horizons, through time and back again to yourself – on board the HANSEATIC inspiration. Because true expeditions begin where dreams find the courage to become reality.

LETTING GO – AND FINDING YOURSELF

The expedition ship HANSEATIC inspiration is designed for routes from the Arctic Ocean to the South Seas, for lock adventures and river cruises. Driven by a profound respect for nature, guided by experienced captains and crews, safe navigation with the highest ice class for passenger ships (PC 6).

MOMENTS OF PURE INDULGENCE

Inspired by pioneering spirit, reinforced by respect. Each Hapag-Lloyd Cruises expedition offers expertise to quench your thirst for knowledge, adrenaline to satisfy your pioneering spirit and soothing balm to nurture your body and soul. For never more than 230 guests. A ship as a floating oasis that brings you closer to yourself. A place where elegance and modernity go hand in hand. Where you can adjust your inner balance and explore your personal interests. The spacious spa and fitness area is proof of how relaxing and revitalising an expedition can be. Three restaurants offer a wide range of culinary delights, including a speciality restaurant with its very own style.

The furnishings and fittings of our expedition ship has been designed by probably the world's best interior designer: nature. Everywhere on board – from the cabins and suites to the restaurants – you will be pampered by a composition of colours, light, form and function. For more information, go to www.hl-cruises.com/fleet/expeditionships/on-board

CARRIED BY THE WONDERS OF THE WORLD

Your personal adventure will be enriched by an expedition team of up to 16 members, who will share their expertise and give presentations in the HanseAtrium. Biology, history, regional and cultural studies, geology, glaciology and more – true experts who have researched the topics, published about them and travelled extensively in the region. In the Ocean Academy, you can quench your thirst for knowledge and unlock the secrets of the world with digital content.

Every cruise is an invitation to satisfy your own curiosity and discover the wonders of the world with an experienced expedition team.

. . . IN EVERLASTING MOMENTS

For more than 30 years, we have been organising expeditions that get right under your skin. The many open deck areas, with details such as the glass balconies and the deck tour at the bow, offer “front-row” experiences of the surrounding sights and nature. In places where there are no harbours in isolated regions, our Zodiacs will take you in small groups and without long waiting times to the heart of nature: between icebergs, to secluded beaches or along narrow river branches.

The cruise number, which you will find highlighted in colour on the relevant cruise page, gives you quick access to all important information, availability and prices at www.hl-cruises.com/CRUISENUMBER. In addition to included Zodiac rides and hikes, optional shore activities provide that extra something in terms of experiences. Or let our travel concierge spoil you with curated travel arrangements personalised to your taste. Further details can be found at www.hl-cruises.com/service. Book your dream cruise now via our website, by phone on +49 40 3070-3070 or at your travel agency.

ANTARCTICA

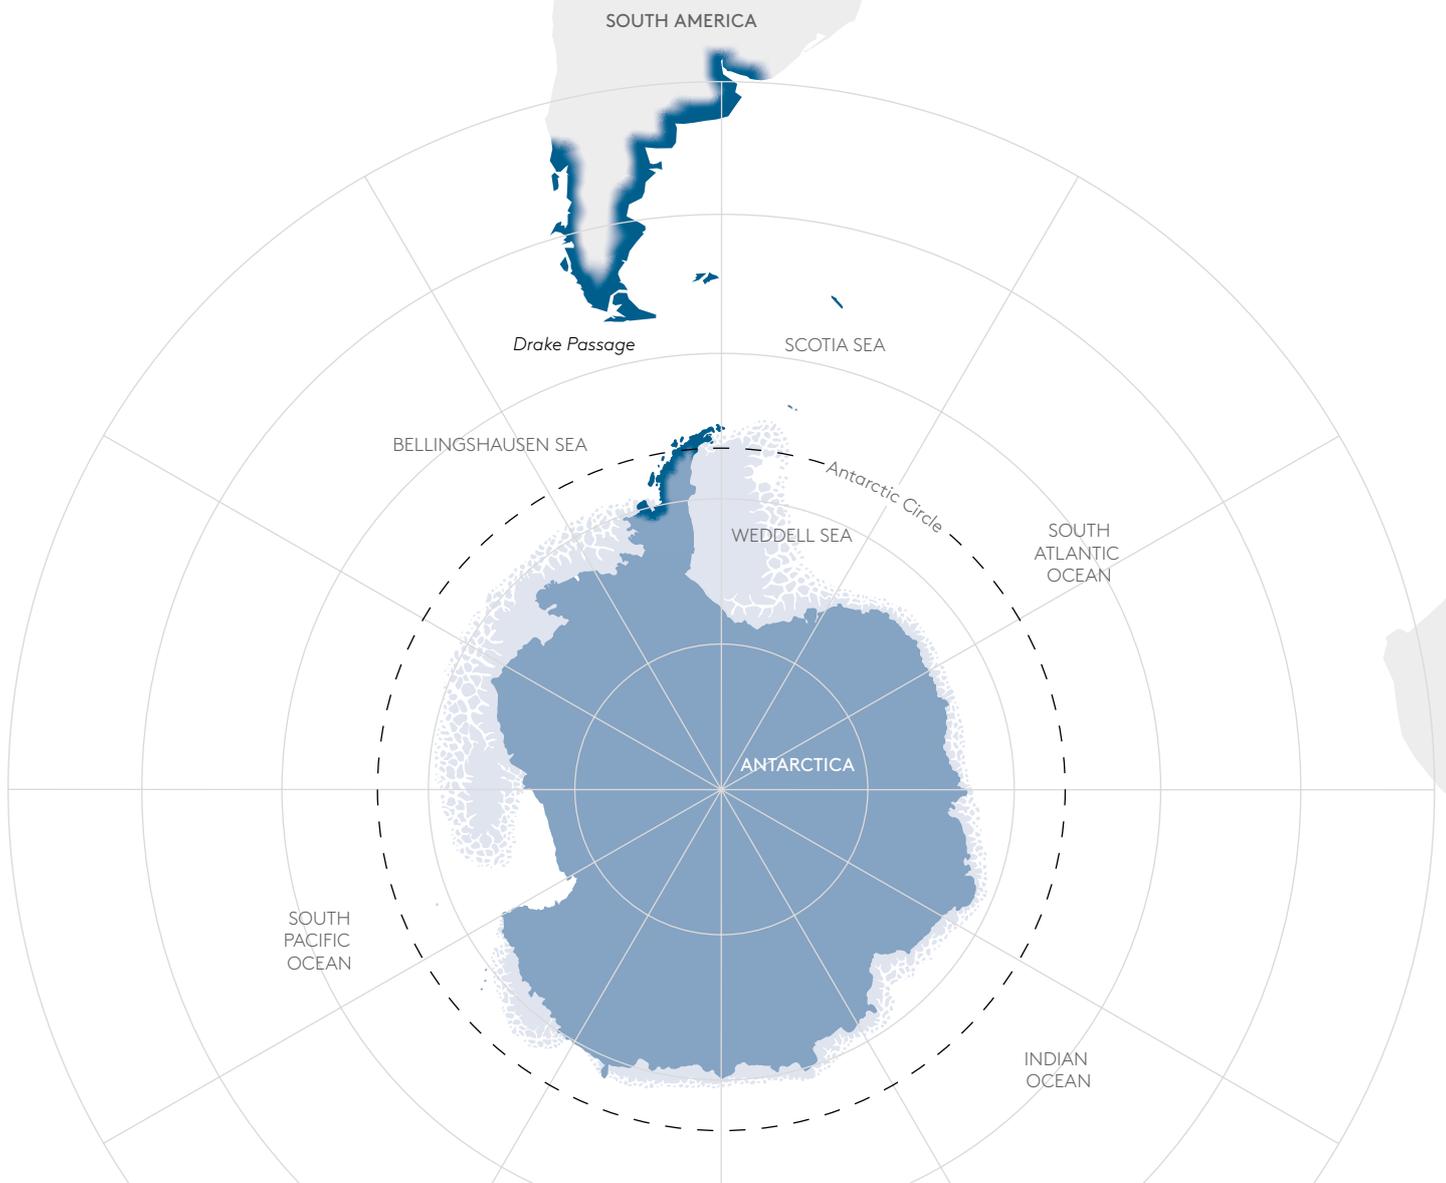

A DISCOVERY OF THE UNIMAGINABLE

The coloured nuances of the ice deviate from any familiar scale. Our captains and crew adapt the route to the weather and ice every day. This has little in common with cruising in the classic sense. Instead, it has a lot to do with experience and intuition: at Hapag-Lloyd Cruises, we know the way to the wonders of the Antarctic. We have been travelling to the southern polar region for more than 30 years. Our teams all have experience in the polar regions – and some

have journeyed to the Antarctic over 100 times. In close cooperation with the German Federal Environment Agency, we offer the best possible experiences with the least possible impact on nature. All our Antarctic cruises take place in the austral summer. In December, it almost seems like the remote region is waking up from hibernation just for you. Penguins return from the sea to their breeding ground, mate and build nests. Fresh powder snow covers the landscape, and the

ice is immaculate. It is light for up to 24 hours. Between January and March, particularly fantastic passages are possible with good chances of whale watching. Penguin chicks fledge and the Antarctic comes to life. Whether early or late – let yourself be intoxicated on our expeditions by an almost unearthly beautiful region rich in wildlife – with penguins in huge colonies, mighty elephant seals and whales as well as many species of seabird.

WHY EXPLORE THE ANTARCTIC WITH HAPAG-LLOYD CRUISES?

- Small, highly modern ship with never more than 199 guests on board
- State-of-the-art equipment and highest ice class for passenger ships (PC 6)
- Decades of expedition expertise with an award-winning route concept
- Captains and crews with experience in polar voyages and who have often travelled in the Antarctic
- An expedition team of up to 16 members provides thrilling background knowledge
- Membership in IAATO (International Association of Antarctic Tour Operators) for decades ensures promotion of a respectful attitude to the Antarctic environment

EACH REGION IS AN ADVENTURE IN ITS OWN RIGHT

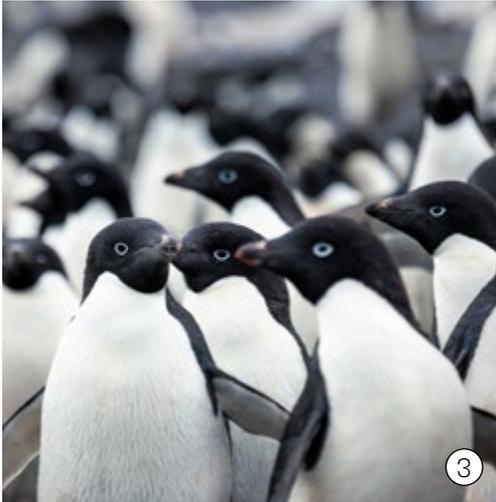

① FALKLAND ISLANDS

Experience this incredible bird paradise, which is home to around 60 species, at close range during Zodiac landings. Observe rockhopper and Magellanic penguins, who share their habitat with kelp geese, striated caracaras, king cormorants as well as black-browed and wandering albatrosses.

② SOUTH GEORGIA

Hundreds of thousands of king penguins live side by side with elephant seals and fur seals on the coasts and cliffs – overwhelming natural spectacles that you can observe from a respectful distance after landing on one of the black shores. In addition, trace the footsteps of the explorer Sir Ernest Shackleton, who found his final resting place here in 1922.

③ SOUTH ORKNEY ISLANDS

The South Orkney Islands are a lonely, glaciated world of icy wilderness in the Scotia Sea. They are home to chinstrap and Adelie penguins, which can be spotted here. With luck, you will also see icebergs drifting off the rugged coast. Find out how the polar explorers live at the Argentinian Orcadas Station (depending on weather and authorisation).

④ ANTARCTIC SOUND AND WEDDELL SEA

Icebergs ahead: at the bow and on the open deck areas, you can enjoy the best views of the stunning white wonderland. You may even spot the flukes of blue whales, sperm whales and humpback whales as well as orcas. The Weddell Sea features stunning ice formations – whether as sparkling blue-and-white sculptures, gigantic tabular icebergs or creaking sheets of dense pack ice.

⑤ SOUTH SHETLAND ISLANDS AND ANTARCTIC PENINSULA

Experience a region between ice and awe intensively – on deck as well as by Zodiac. Off the Antarctic Peninsula, your expedition ship sails into the centre of the flooded caldera of Deception Island. Majestic glaciers and gigantic icebergs shimmer in Paradise Bay. The Lemaire Channel is also impressive, flanked by mighty mountains up to 1,000 m (3,281 ft) high.

⑥ ANTARCTIC CIRCLE

The further south your expedition goes, the harsher and icier the endless world of white appears. The excitement on board mounts as you approach the crossing of the Antarctic Circle. How far can the ship advance? Thick ice fields and high tabular icebergs are a common sight here. The glaciers seem even more dominant in this icy domain. A unique feeling of pioneering adventure.

PENGUINS

A group of gentoo penguins waddle clumsily along their favourite path, your welcoming committee in the snow. The animals are often just as curious as you are – and loud. As you land on the beaches of South Georgia, for example, where hundreds of thousands of king penguins gather in crowds or breed, there is copious chatter. Penguins are the stars of every Antarctic cruise.

SEALS

Swimming in the open sea, resting on ice floes or lying on rocks: you will often encounter pinnipeds on your expedition. With a little luck, seals will accompany your ride as you cruise slowly off the coast in the Zodiac. Or you can observe the Weddell seal, for instance, sunbathing on the beach.

WHALES

A giant body glides gracefully through the water, a deep burst of breath breaking the silence. The fluke rises and falls as if in slow motion. This is an experience of nature you might witness on your expedition. There is a chance of seeing blue whales, sperm whales, humpback whales and orcas. When the marine mammals appear, the captain flexibly changes the course of the ship.

SEABIRDS

Surrounded by birds curiously following the ship, you will learn a lot about the approximately 275 species of seabird found in the Antarctic waters. King cormorants, petrels and blue-eyed shags are just some of the species you might see. At the time of your cruise, the seabirds come ashore to mate, build nests and breed.

ANIMAL CALENDAR

DIVERSE FAUNA OF THE ANTARCTIC OCEAN

GUIDED BY KNOWLEDGE THROUGH THE ETERNAL ICE

On every Antarctic cruise, an expedition team of up to 16 members is at your side – with expertise, passion and specialist knowledge. On land and on board, such as in the Ocean Academy, your experts share fascinating details and information. They enrich your observations with interesting facts and answer all your questions during Zodiac rides or on hikes. Captivating presentations and discussions provide impressions and insights that will stay with you for a lifetime.

Studies in a small group
Among like-minded explorers and on the basis of real examples, you will acquire new knowledge on explorations with your team of experts.

ELISABETH SPITZER

Glaciologist

The mountains of the Alps have fascinated the Viennese scientist since her childhood days. During her geography studies, she became more interested in glaciers and the shaping forces of ice. With her expertise, she will enhance your hikes as she takes you on an educational journey into glaciology and discusses the formation of spectacular landscapes with you.

PROF INGO HEIDBRINK

Historian

He is one of the world's leading maritime historians. In addition, he is an expert in the history of fishing and whaling as well as the history of the Arctic and Antarctic and polar tourism. Numerous research trips have taken him to the most remote regions of the polar world. His extensive knowledge and personal experiences enrich every expedition.

CARINA GSOTTBAUER

Biologist

An encounter with beluga whales and a blue whale several years ago deepened her passion for these animals, as did her time on whale-watching boats in Iceland. She will teach you to identify and name the different species of whales and also introduce you to the world of plankton – with the help of microscopes, for example, in the Ocean Academy.

BEING ACTIVE WITH ALL YOUR SENSES

Your polar day begins in the morning when the Zodiacs are lowered into the water, ready to take you off to extraordinary destinations. The crystal-clear air and the omnipresent sense of adventure envelop you while the majestic atmosphere of the Antarctic revives all your senses. As you zip through the water heading to the coast, the back of a whale is suddenly spotted. Your Zodiac stops to enjoy this impressive spectacle. With its burst of breath clearly audible, the ocean giant glides past in the water. As if in slow motion, it lifts its fluke before gracefully diving back down again. The excitement in your small group continues even after the Zodiac lands ashore. On a snowshoe hike with your experts, you will get a feeling for the challenges historical explorers once had to face. The hike rewards you with stunning vantage points and fascinating wildlife observations.

Your onward journey takes you past an iceberg from which Adelie penguins jump head first into the water. Back on board, your sense of discovery continues in comfort. On the many open deck areas, you can enjoy the sight of the sparkling blue-and-white world stretching out before you. In the afternoon, you will again take to the Zodiacs and head right back into the spectacular world of ice. A seal basks in the sun on an ice floe. The coloured nuances of the ice differ from any familiar scale, and the frozen works of natural art leave you in awe. You can then consolidate your many experiences in the ship's Ocean Academy and at presentations given in the evenings by your experts with a view of the next expedition day. As the ship pushes huge floes of ice aside, the thrilling sound of crunching and cracking accompanies towards more upcoming adventures.

More than ice

In addition to the sea and inland ice, the Antarctic region also has tundra, dry valleys, glaciers, mountains and active volcanoes to offer. To protect the sensitive ecosystem, your explorations along the coast and on land only take place in small groups.

The Amazon: a stage for moving natural spectacles and cultural encounters, all the way up into the remote regions of the river's upper reaches. Here the route is the destination – on which you will discover hidden idylls and marvel at the exotic biodiversity. The experts will enhance your experiences with their specialist knowledge on board. Numerous explorations by Zodiac bring you to encounters with native people on the river, living in their typical stilt houses. Taking narrow side branches leads you deep into the jungle – gliding past bromeliads with bright-red flowers as well as passion flowers. Macaws and toucans may suddenly pass by overhead as, with a bit of luck, river dolphins playfully appear in the water.

While Manaus, a symbiosis of modernity and classicism, is the destination or turning point for almost all other ships, this expedition takes you far up into the upper reaches of the river. A unique experience that is only possible with a small expedition ship like the HANSEATIC inspiration. Constant rustling and crackling noises announce the presence of diverse wildlife, and the exotic scent of the plants is sure to captivate your senses. A night-time Zodiac ride is an unforgettable experience as well: watch out for nocturnal animals, such as caymans, revealed in the conical beam of a searchlight. Will you spot capuchin monkeys or sloths by day? Such an array of natural treasures will enrich your memories for a long time to come.

The itinerary depends on official approval and the weather conditions.
 The natural experiences and wildlife sightings described are possibilities on this expedition and are not guaranteed.

NORTHERN AND WESTERN EUROPE

Expedition circumnavigation of Ireland and wild Scotland

MYSTERIOUS CELTIC REALMS: RUGGED, WILD AND BEAUTIFUL

This cruise is all about contrasts. Rough cliffs and lush green landscapes, picturesque coastal towns and mighty castles. Unforgettable history coupled with fascinating mythology. At the best time of year for bird watching, this cruise will inspire you – both ornithologically and culturally.

HIGHLIGHTS

- Guided by curiosity, explore the natural treasures and history of the British Isles
- Ornithology brought to life: natural spectacles on the cliffs, where thousands of seabirds breed at this time of year
- Active experiences in nature with Zodiac rides and hikes amidst picturesque scenery
- Prehistoric myths and magical places: fascinating history conveyed by your experts
- Architecture that speaks volumes: Victorian houses, medieval castles and cottages

For details and prices, see

Expedition wild Scotland and Iceland

FROM THE HIGHLANDS TO THE LAND OF THE ELVES

Europe's island treasures and explorer's terrain: this route paints a picture of wild landscapes with bizarre rocky coastlines and volcanoes. From the clans of Great Britain to the elves of Iceland. The flora and fauna on this expedition is as diverse as the cultural heritage waiting to be discovered by you.

HIGHLIGHTS

- Natural contrasts in the north of Europe: from bleak and secluded to charming and lively
- True expedition feeling: with the Zodiacs through the rugged island world of Scotland
- Traces of settlement on the Shetland Islands: from Stone Age people and the Vikings to the present day
- Iceland's volcanoes, whales and cultural scene: enjoy Reykjavik with an overnight stay on board
- A paradise for ornithologists with puffins, guillemots, northern gannets and other birds

For details and prices, see

WESTERN ARCTIC

Expedition circumnavigation of Iceland and south-west Greenland

PREMIERE BETWEEN FIRE AND ICE

Join the HANSEATIC inspiration on a unique premiere route that takes you from the rugged coasts of Iceland to the majestic scenery of Greenland. Discover the untamed glory of nature – from volcanic landscapes to impressive glaciers.

HIGHLIGHTS

- Combined for the first time: rugged Iceland and the icy coast of south-west Greenland
- Paradise for ornithologists: puffins, northern fulmars, polar gulls and more
- Hikes with experts past waterfalls and through the Arctic tundra
- “Whale spotted!” – a haven for minke whales, porpoises, humpback whales and sperm whales
- Admire lustrous ice sculptures in Greenland’s Disko Bay on Zodiac rides

For details and prices, see
www.hl-cruises.com/INS2711

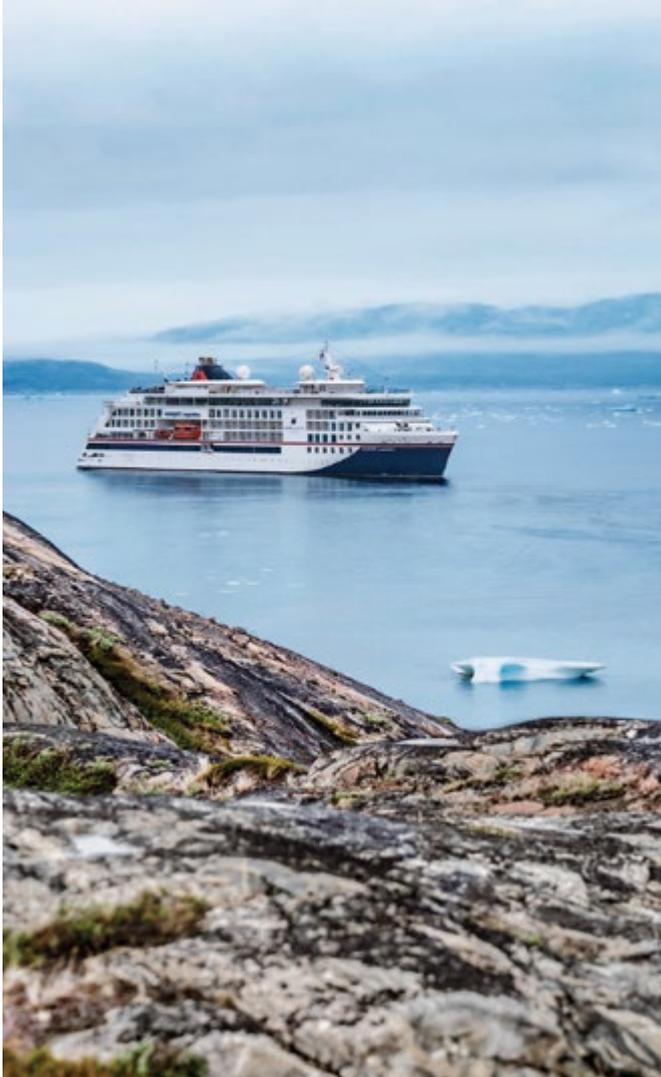

Adventure, fascination, unspoilt nature – two contrasting worlds open up spectacular horizons for you at the Arctic Circle: Iceland and Greenland. So different and yet both with magnificent untamed landscapes. The first part of this premiere route belongs to Europe's mystical island beauty. Write your own saga as you discover Iceland, with its spectacular fjords, waterfalls, volcanoes and lakes. The golden light of the midnight sun illuminates the dramatic coasts that are inhabited by impressive bird colonies. Truly sublime scenes, which are crowned by sightings of the giants of the sea. On numerous hikes, your team of experts will tell you everything about the history of small fishing

villages and the legends of trolls and elves. The second part of the route is devoted to Greenland. Imposing mountain ranges, glistening icebergs and vibrant Inuit settlements not only soothe the soul of explorers, but also make adventurers' hearts beat faster. Enjoy a rapid succession of splendid expedition moments as the HANSEATIC inspiration inches its way along the deeply carved coastline. Your experienced experts will take you on a journey through Viking history in their presentations and accompany you on hikes through the diverse tundra. Look forward to observing purple sandpipers, polar gulls and peregrine falcons, as the entire cruise is a paradise for ornithologists.

Expedition north-west Greenland

UNTAMED HEART OF THE ARCTIC

Expedition to the far north: the world's largest island has so far kept many secrets to itself between the icy coasts and tundra. Be inspired by the wildlife, Inuit culture and history of the region on this polar adventure.

HIGHLIGHTS

- A wealth of contrasts with mighty glaciers, vast tundra and vibrant Inuit culture
- Excellent opportunities to observe seals, whales and musk oxen
- A wide range of hikes and visits to historic settlements
- Off to remote shores and amidst ice sculptures: Zodiacs take you to magical places
- Steeped in history: on the trail of legendary polar expeditions

For details and prices, see
www.hl-cruises.com/INS2712

Look forward to intensive expedition days that will bring you closer to Greenland's spectacular contrasts. In the summer, the island paints a colourful picture: icy white, lush green, deep brown and dazzling yellow. A vast and silent landscape, home to relics of a 4,500-year-old culture – seemingly almost forgotten by the world. The further north the ship sails, the more the ice conditions determine the course. Will they allow you to reach remote coasts with their moving history of settlements and exploration? In the play of nature's elements, mighty ice floes drift through the crystal-clear water. Barren rocky landscapes awaken to showcase a rich

mosaic of polar life. Time and again, Zodiac landings provide stunning panoramas. With a little luck, you will be able to observe musk oxen and whales. On hikes, your team of experts will inspire you with stories about the history of the region – from the cultural treasures of the Inuit to the expeditions of Knud Rasmussen and Robert Edwin Peary. Disko Bay provides the magnificent finale. On Zodiac rides or when cruising, you can admire the spectacle of drifting ice sculptures that shine like exquisite works of art in the shimmering light of the mid-night sun. Unforgettable memories to savour and take home with you.

---- Ice conditions determine the course here (see map).

The itinerary depends on official approval, weather and ice conditions.

Expedition Greenland, Newfoundland and St Lawrence River

LUSTROUS ICE AND LUSH GREEN FORESTS

Lustrous ice, lonely fjords and the river of life: encounter the wonders of nature in the vast expanse – topped off with an adventure through the locks. An expedition from the Greenland Arctic to the French heritage laid out by North America's mighty river system.

 YOUNG EXPLORERS

HIGHLIGHTS

- Spectacular expedition days on both sides of the Arctic Circle
- The natural wonder of Disko Bay: admire glittering icebergs from the deck and the Zodiacs
- Canada's best-kept secret: Newfoundland's vast wilderness with fjords and lakes
- Your experts enrich hikes with background information on the Vikings, Inuit and First Nations
- Only possible with a small ship: seven locks in the St Lawrence River

For details and prices, see
www.hl-cruises.com/INS2713

The prologue of your expedition lies along the west coast of Greenland, where you will encounter Inuit culture in small settlements. A hike to the ice fjord of Ilulissat, with its towering icebergs, is a real highlight. Even more awe-inspiring are the views of Disko Bay that you can enjoy on Zodiac rides or when cruising as sparkling ice sculptures slowly drift past. Your ship will chart a flexible course through the fjords of Greenland, and the Zodiacs will be used repeatedly throughout the expedition. With a little luck, you might spot whales, surrounded by the colossal scenery. Away from the usual routes, Canada's sparsely populated east coast is a real insider's tip. Newfoundland provides fascinating and eventful history,

ranging from the Indigenous people and the Vikings to European explorers. With your experts, you will follow in their footsteps and hike through lush nature. The wonders ashore continue on the water when cruising in Saguenay Fjord. At its mouth off Tadoussac, various marine mammals come to hunt for food. Keep an eye out for beluga whales. During the lock adventure on the St Lawrence River, the HANSEATIC inspiration negotiates seven locks with a height difference of up to 15 m (49 ft). You can watch the thrilling manoeuvres from the spacious deck areas during the day. A wealth of diverse expedition moments that you are bound to remember long after you have come home.

The itinerary depends on official approval, weather and ice conditions.
The natural experiences and wildlife sightings described are possibilities on this expedition and are not guaranteed.

GREAT LAKES

Great Lakes

UNFORGETTABLE EXPERIENCES ON ALL FIVE GREAT LAKES

Pioneering spirit and a great sense of freedom come together on the Great Lakes of North America. Discover this natural wonder – consisting of five connected lakes – and unveil the secrets of history in an “ocean” amidst the wilderness.
