## A GREENER COASTAL VOYAGE

Havila Kystruten operates Bergen-Kirkenes with the most environmentally friendly coastal ships in the world. All our ships are loaded with the world's largest battery packs, and for four hours you can sail without noise or emissions through vulnerable fjords. The batteries are charged with clean hydropower at shore, and when the batteries are low we switch to natural gas which cuts CO2 by around 25%.

We invite you to a sustainable voyage so that those who come after us can also experience the beautiful Norwegian coast with its vibrant nature and vibrant local community. That is our mission. In addition to the fact that we will of course get you there safely.

Havila Voyages is part of the Havila Group that dates back to the 1950s. From fishing and herring fishing, Havila is now a group operating in shipping technology, offshore, transport and tourism.

Ships have large, spacious cabins, offer high comfort and Norwegian interior design. In addition, we serve great flavors made from the best ingredients Norway has to offer - composed by Olympic Gold-winning chef, Gunnar Hvarnes. This is just one of the things that make it the best way to experience the best of Norway.

Welcome aboard!

## NEXT GENERATION SHIP

At Nor-Shipping in April 2022, "Havila Capella" was announced as the winner of the "Next Generation Ship Award". The prize is awarded to ship projects that show the greatest progress and innovation in ship design in terms of energy efficiency, suitability and flexibility, technology utilization, safety and sustainability for the coming decade.
