Moments to explore 2022

Greenland – Iceland – Northern Europe

## Welcome on board our MS SEAVENTURE

Are you longing to experience an adventure, enjoy breathtaking landscapes and impressive cities? Then we share the same feeling! Our family business has been fascinated by the idea of exploring new territory by water for more than 45 years. While our river ships set course for the most beautiful European regions, we are now answering the call of the oceans and setting out on exciting cruises with our first seagoing ship SEAVENTURE.

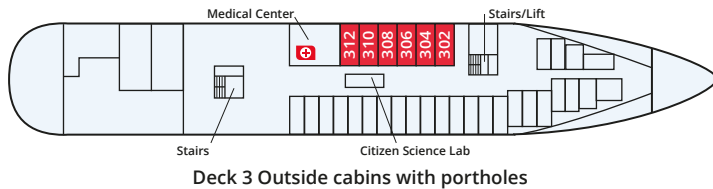

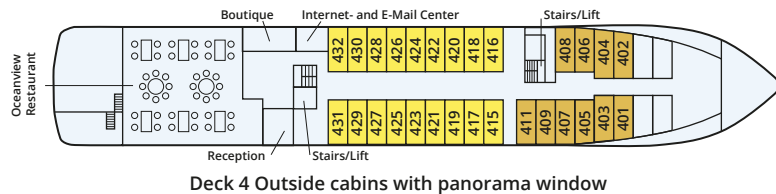

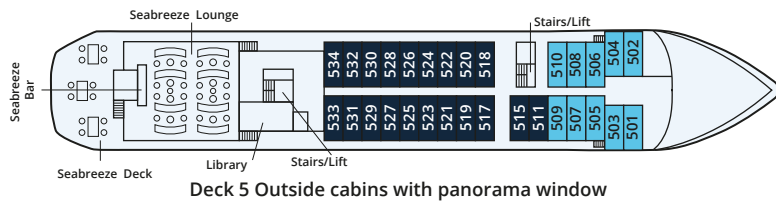

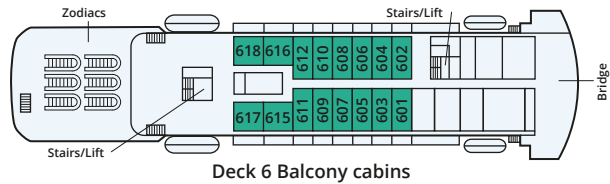

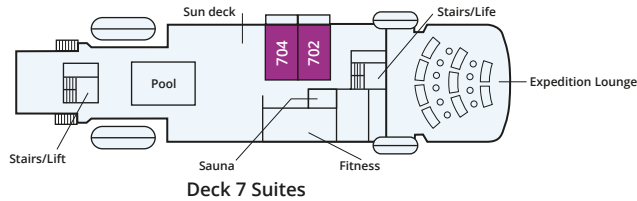

We have carefully selected every single destination on our varied itineraries. As a small expedition ship, the SEAVENTURE can call at remote ports and manoeuvre in narrow rivers and fjords. Would you like to discover seemingly untouched islands? Feel the enchantment of icebergs? With a fleet of fourteen Zodiacs, you can admire the natural treasures at close quarters - we can guarantee you overwhelming experiences here!

While a new adventure is already approaching when docking at the next port, you will enjoy the 4-star-plus comfort typical of VIVA Cruises on board. You can look forward to the relaxed atmosphere in a small circle of maximally 164 guests and discover the wonders and cultures of this world with us!

## North Sea Rendezvous

What could be nicer than a salty sea breeze? Maybe the enticing smell of freshly baked cinnamon rolls – and they’re officially bigger in Gothenburg than in the rest of the world! But not only the legendary „Hagabullen“ sweeten the start of your holiday. The second largest city in Sweden inspires with excellent cuisine, urban flair and lots of greenery. From here we continue to the „City of Smiles“. Why does Aarhus have this name? The Danish coastal town will reveal this to you on a long walk past modern architecture in the harbor and enchanting alleys in the historic district of Indre By. After saying goodbye to Scandinavia, you can look forward to two island treasures. At the northern tip of Sylt, List welcomes you with gently rolling sand dunes, the screeching of seagulls and a fascinating nature reserve right on your doorstep. Quite different Helgoland with its stone landmark. A walk along the cliff path leads you directly to the „Langen Anna“, an imposing block of red sandstone. What both islands have in common: the feeling of endless space and freedom. A trip can hardly end more beautifully!

Ilulissat

## Summer in the eternal ice

The far north reveals a cool beauty that takes your breath away. Its icy face makes it a place of longing that you explore with us. After a stop on the Scottish Shetland Islands, we dock in Iceland, the land of volcanoes, geysers and hot springs. Filled with wonderful first impressions, we set course for Greenland, which welcomes us with snow-covered peaks. The passage of the Prins Christian Sund becomes a special spectacle: rugged rocky landscapes are reflected in the deep blue water, rising from lush green meadows in summer. In Disko Bay, we encounter glaciers and majestic ice palaces, between which humpback, minke and fin whales cavort in summer. Wondering if you will spot the giants of the seas? Ilulissat, the city of icebergs, is the gateway to the mighty Icefjord. The floating chunks of ice come from Sermeq Kujalleq, the largest glacier in the northern hemisphere. From the Zodiac, the fascination of the ice in all its impressive formations is within one's grasp. Before you head home with unforgettable memories, pay a visit to Iceland's capital Reykjavik.

Loch Linnhe on the west coast of Scotland

## Magic of the North

Europe's north beckons with its overwhelming natural beauty and historical sites that provide the setting for numerous legends. Come with us to Iceland, Ireland and Scotland and experience the magic that surrounds every single stop on the carefully-choreographed route! In the process, you will discover completely different perspectives: Your journey will take you to deserted beaches, where you will find peace and time to unwind, but also to the big cities of Reykjavik, Aberdeen and Edinburgh, where history and modernity live side by side simultaneously. Explore landscapes with us that are so pristine and surreal at the same time that the rest of the world recedes into oblivion. Cliffs and bays shaped by the sea into spectacular coastlines. Castles and fortresses that turn back the clocks to distant centuries. A relaxing sea day on board gives you the opportunity to reflect on all the wonderful impressions once again before disembarking in Bremerhaven.

## Scandinavian beauties

Where better to enjoy the incomparable Scandinavian attitude to life than in the coastal towns of Norway, Sweden and Denmark? Here the sea washes ashore a maritime atmosphere, and some of the greenest cities in Europe invite you to take time out between culture and nature. Whether you stroll through the fish market in Kristiansand, visit royal palaces or watch the rough North Sea and the milder Baltic Sea meet in a unique natural spectacle near Skagen - this trip will make explorers as happy as those seeking relaxation. There are plenty of moments of enjoyment: a cocktail in one of the countless rooftop bars with a view over Oslo, for example, a „fika“, a coffee break, in Gothenburg or a typical succulent smørrebrød in Copenhagen. Before returning home, discover Sylt’s most beautiful sight: the incomparable nature of the German North Sea island.
