

SUMMER 2024

Cruise selection

ARCTIC AND AMERICAN FAR NORTH • ASIA

Reinventing summer

The most seasoned travellers will tell you: the beauty of travel is the unexpected. That's why vast areas and out-of-the-ordinary discoveries will undeniably be most welcome to guests of our 2024 spring-summer season.

Breathe in the fresh air of Alaska, marvel at the Northern Hemisphere's largest icebergs in the Baffin Sea, cross the iconic Northwest Passage, and escape to the secret fjords of Spitsbergen.

The Arctic offers you an endless world of primeval forests, thousand-year-old glaciers, and authentic experiences. On one side, resplendent nature is punctuated by the cry of a bald eagle. On the other, the serene passage of humpback whales creates calm ripples across smooth waters. And over there, a polar bear strides assuredly across the immaculate landscape.

At the end of winter, *Le Commandant Charcot* is the only ship that can take you to the most isolated regions of Greenland. The east coast of this island country will reveal to you the awakening of nature, still caught up in the transpolar drift. From meetings with the Inuit to polar trekking and dog-sledding, you'll be touched by the power of these places and the friendliness of their inhabitants.

And further east still, get ready to be surprised by a little-known Japan. Discover it with us on the only expedition cruises to the region. Our itineraries include subtropical islands, white sandy beaches and coral reefs, or Christian heritage and unprecedented stopovers in the Koshikishima Islands.

To make your travel dreams come true, take advantage of an exclusive preview offer of 10% off all cruises in this brochure. The summer season has never tasted so delicious!

See you on board soon,

TEN REASONS to sail with PONANT

Travel is an art

Each season, we design meaningful trips inspired by four major themes: Planet, Culture, Lifestyle, and Geopolitics. In order to provide you with unique experiences, we rely on the expertise of our renowned partners, represented on board by inspiring personalities: artists, historians, curators, researchers, journalists, essayists and others.

Conscious travels

In the Arctic and the Antarctic, we are members of IAATO and AECO: regulatory organisations that bring together different stakeholders in the polar regions to promote more responsible tourism. We have earned numerous labels, including Bureau Veritas' *CleanShip* certification for our fleet.

Travel expertise

Our specialists have been exploring the world in search of natural and cultural gems and treasures for thirty-five years. Each itinerary has been designed to offer you the opportunity to discover rich wildlife and extraordinary landscapes, and to meet local cultures. All of this, in complete safety, with the support of our experts: your expedition team or our partners and guests.

A more sustainable form of tourism

Through our foundation and our PONANT Blue Horizon and PONANT Science programmes, we go to considerable efforts to reduce our impact both on land and at sea (elimination of heavy fuel oils, the use of hybrid propulsion, waste and wastewater recycling and treatment, elimination of single-use plastics, etc.), and to contribute to scientific research (hosting researchers on board *Le Commandant Charcot*).

A safe and modern fleet

We are one of the few cruise companies to sail under the French flag, one of the safest in the world. We thus adhere to a range of strict requirements governing the training of our teams and compliance with health and safety protocols. Our intimately sized ships have between 16 and 165 staterooms only and are equipped with the most advanced technologies available to ensure we sail and navigate in a responsible manner.

Lifestyle

Experience the comfort and elegant design of the public areas on board our ships. The swimming pool (except on *Le Ponant*), the fitness centre, the spa in partnership with famous brands (Clarins, Diptyque, Biologique Recherche, Sothys and Algotharm) and the restaurants and bars all offer you a warm and friendly atmosphere. The onboard theatre also provides a venue for film projections, conferences, and shows.

On the PONANT table

Prepare to be delightfully surprised by a range of refined cuisine designed and put together by Ducasse Conseil. On the menu: fine breakfasts, 'à la carte' dishes and varied buffets, home-made pastries, bread prepared on board, tea time specialities and luxury food and drink tastings. The service we offer on board *Le Commandant Charcot* now includes Nuna, the only gourmet restaurant at sea by Alain Ducasse featuring a menu devised by the multiply Michelin-starred chef himself.

A complete offer

Everything is included on our cruises: full board; drinks (excluding the premium menu); room service; internet access; shows and entertainment; talks and conferences; access to the fitness area, the steam room or the sauna; and sea-based activities (except scuba diving). On expedition cruises, the services of the naturalist-guides, the excursions, the onshore activities and the disembarkations by inflatable boat are all included. In polar regions, we also provide you, on the vast majority of departures, a parka and the loan of boots.

Tailor-made journey

With our 'à la carte' service, you can book private excursions, hotel nights or flights with the help of our advisors. For certain hard-to-reach destinations, we offer private flights and land transportation. We have also set up a unique concierge service, dedicated to the future guests of *Le Commandant Charcot*, *Le Ponant* and as well as those of the Owner's Suites aboard our other ships. Your dedicated contact:

conciergerievoyage@ponant.com

Finally, as soon as you make your reservation, you can download the PONANT application to help you prepare for your trip and to use while on board.

Many advantages

Solo travellers, family and friends, honeymooners, couples celebrating wedding anniversaries, adventurers embarking on back-to-back cruises, or people travelling as part of the referral program or the PONANT Yacht Club loyalty program: there are plenty of benefits for every guest.

Discover all our available offers.

The Arctic

The Far North reveals its many beauties, between the snow of the Alaskan peaks, the mythical coasts of the Thule region, and Greenland. Visit the western shores or the expansive pack ice at a time of year when typically inaccessible to traditional ships.

The sailing programme, outings, activities, highlights and observation of fauna cannot be guaranteed and are subject to weather and ice conditions.
